PROJECTS

Proxtal. A user-friendly platform designed for matching infrastructure professionals with projects, where employers can post jobs and projects, and professionals can search and apply, streamlining the hiring process in the infrastructure sector.

Alumni Portal. Developed a comprehensive Alumni Portal that enables alumni to connect, share achievements, participate in group discussions, and chats, and stay updated with events, job postings, and the latest news. The platform also includes features for organizing elections and facilitating voting among alumni, along with a Hall of Fame and What's New section.

Admin Portal. Worked on an Admin Portal for managing institute and brand details, alumni-related functionalities, and a user-friendly report section for tracking alumni engagement metrics, including setup, sent opened counts, and content repository management.

Insurance Application for Health (AVIVA, USA). Aviva is a scalable life insurance suite offering solutions for agent management, new business processing, underwriting, policy services, reports, and accounts. It simplifies tasks like proposal validation, underwriting, and policy servicing, streamlining operations for insurance companies.

ZipDJ: DJ pool. An online subscription DJ pool for USA and Canada, offering top and trending DJ-mix music with advanced search by track, artist, genre, and label with multi-functionality. Includes Classic Admin, ZipDJ, and Label sites.

Dev Focus. Developed a Lofi music streaming application using ReactJs, including an intuitive media player with volume controls, configurable background, and personalized YouTube playlist Integration support for developers seeking an enhanced focus during coding sessions.

EpiqScript. A telemedicine e-commerce site with a user-friendly medicine purchase questionnaire and an order management admin panel, including email notifications and parcel tracking.
